## Gov. Hyde's Special Legislature

Governor Hyde has promised to call a special session of the Missouri Legislature in the near future. He has recently been quoted as saying that one of his reasons for delay is that he has not fully made up his mind as to all the legislative program that he would present for consideration.

We would suggest to the Governor that he recommend to the special legislature the passage of an anti-lynching bill, and include such a paragraph in his special message.

We take it that the governor is particularly interested in such legislation as will make this State a better place in which to live. And, as much as lynching and mob violence are a disgrace to any state, we see no reason why the governor should not be heartily in favor of such a bill.

The Republican and Democratic parties of this State are committed to such legislation in their platforms, which they made last fall. And the time was never more propitious as now. President Warren G. Harding has set the pace and in keeping with the spirit and principles of the Republican party, the path has been made easy for the true-hearted to follow.

We have had too many lynchings in this State during the past four years, with four in all that have been publicly recorded. Two were white and two were colored.

If nothing is done to protect lives for the future, who knows or will venture to say what may be the future in the way of mob violence in the State? Will the governor wait until some wholesale lynching and possible burning of human beings at the hands of a mob before he will act, or before his conscience is awakened to the situation? Can he be so slow to wait until then that a wrong will be committed that can never be made right? Remember what happened in Springfield of this State in 1900. Yes, it is fresh on our minds and we have no need to think of that horrible lynching and burning it rushes the blood in our veins.

As chief executive of the State, Governor Hyde should take the lead in this matter as a precaution against mob law. He owes it to the people of the State to use his good office in defense of life and property, and mob violence. He cannot permit, that there is no danger of such things happening just because it is a Republican. Experience does not justify such a conclusion. But because he is governor and a Republican, with a Republican House and Senate surely he has the courage with such support to tackle, and put over legislation that would do honor to any state.

We suggest in the name of law and order; this we offer in the name of progress for the State; this we offer in the name of peace and goodwill toward all in the State. This suggestion headed will take Missouri out of the "Back-woods" column and bring her to the front, fostering progressive banners high. Will Governor Hyde act? We hope so.

## N. A. A. C. P. Membership Drive

The local branch of the National Association for the Advancement of Colored People is now in the midst of a membership drive, which is a part of the nation-wide drive that the National officers are promoting for members during the year.

This is the only organization, National in scope, functioning three hundred and sixty-five days in the year for racial betterment.

The organization is composed of both colored and white. Among its present membership are Governors of States, United States Senators and Judges upon the bench.

It is object is to secure for all American citizens equal justice before the law and to secure for every citizen the rights guaranteed by the Constitution of the United States.

Of course, there is a large number of citizens in the United States who are opposed to the present Constitution that the majority of those who are so opposed to the Constitution, are those who have to do with law and order of the land. And as a result of such opposition, one class of citizens are forced on account of their lesser numbers, to suffer many horrible injustices at the hands of the others.

This condition has caused much race friction and has bred that which is commonly called the race problem. With this has come that monster race prejudice.

The National Association for the Advancement of Colored People has undertaken the task of ameliorating this condition with the hope of finally bringing about the rights of all citizens.

Much effective work has been done along this line and the most gratifying results have been achieved.

To carry on this work it requires numbers and money. Numbers to back up the demands of the organization for justice and fair play. Money to bring their cases before the bar of public opinion and to have a say in the courts, just as the light of day.

The National Association for the Advancement of Colored People has done more to change conditions than any other organization since the days of the "Underground Railroad." Eighty-five per cent of the members are colored people, and naturally so. For he who would be free must himself strike the blow.

The local branch of the N. A. A. C. P. should have at least 20,000 members, that would be about one-third of the colored population. This would give a new working organization that could speak and be heard. Once getting a hearing, a change in conditions will follow.

Freedom and the rights of freemen are the dearest gifts that can come to mankind. Those of us who believe in our selves and those who are not alive at heart will join in this movement. But the careless and indifferent will go on their way in the same old way.

## Will President Harding Measure Up?

There is always something to come up very early in a president's career to test his good sense. Mr. Wilson working in the Register of the Treasury's office at Washington, had petitioned President Harding, not to appoint a colored man as head of this office, as has been the custom of the Republican party for many years. The petitioners point out that there are now more than 900 white women and men employed in this office, and that it would be inevitable to appoint a colored man as Register of the Treasury over them.

These petitioners have nothing to say about the qualifications of the man mentioned for this office. It is just his color they object to. Now there should be no difficulty for the President of the United States to silence these misguided children. For certainly children they are, for no person with matured mind would, in an age like this, come to the President of the Nation with a proposition so entirely out of harmony with the American sense of fair play.

It is the duty of the President, which duty we are certain Mr. Harding appreciates and will abide by, to give these petitioners a fatherly lecture on citizenship, and then allow those who cannot work harmoniously with the colored man he has in mind to appoint, as respectfully resign, and make room for the many other Americans, who are thoroughly imbued with the principles of our government, and who

have no scruples about working with a colored gentleman with the necessary qualifications to fill the office.

Our government is coming to a pretty pass, when a number of misguided, prejudiced infected reactionaries can muster the nerve to petition the President of the United States to not do his duty, because the person by whom he is to do his duty, through the will of God, happens to be colored.

We have been taught to believe that all heathens are in foreign lands.—Exchange.

Despite the advice and pleadings of the well thinking people of the Race, there are still among those who are always aping the "all may be" will "work" his face, so he may appear as a black. Now Negro is charged with powdering his face so he may appear white. Camouflaging and masquerading seem to be a fad in St. Louis.

Now that wholesale peonage has been revealed in the South the all-important and burning question is, will the Department of Justice go to the bottom of this evil and break it up?

Faith in ourselves will remove mountains. But the great trouble with us as a group is that we have not faith in the other fellow. The man who has no faith in his fellowman, has very little in himself.

We still believe in the doctrine that where there is unity there is strength. Come on fellows let us unite our forces and let's see what we can do!

We regret to say that there are still a few two-by-four Negroes who are going around with their little hatchet, knocking everything and everybody, but their own shins, to pieces. Brother, should you live tomorrow, the world would move on just as though nothing had happened. See!

Mayor Henry W. Kiel was officially inducted into office as mayor of this city for a third term last Tuesday. He assumed the office not in a boisterous, braggadocio spirit, as one who had triumphed over his enemies, but with a sincere purpose of heart to make St. Louis a greater city.

AMERICAN WOODMEN Victory Celebration  
ANNUAL SERMON

The Victory celebration meeting at Metropolitan Church last Monday night was attended by 1500 members. Owing to the approaching mayoral inauguration which took place the following day, his honor, Mayor Kiel, was not present, but Junie Frank M. Sigler, Committee member, made the satisfactory explanation.

Among the speakers were: Dr. T. J. Mappin, Miss Victoria K. Star, Mrs. Grace Temple, Hon. Frank M. Slater, Hon. William M. Moore, Mrs. Rosalie, Mrs. E. Crump and Mr. Annula Gray. The Rev. Dr. J. K. Natl Colored League Club  
Will Face Doc Andrews'  
Strong Huron Team From  
The South Dakota League

GAME EXPECTED TO  
BE PITCHERS' BATTLE

Mills Will Send Young Carr  
Against Big Chief Indian  
Joe Weston. Westerners  
Touted To Beat Our Boys.

The St. Louis Giants will make their first home appearance, of the 1921 season, at Giants Park, 5900 N. Broadway, next Sunday. The first of a three game series against Doc Andrews' Huron, S. Dakota League Club will be played. The other games will be on Monday and Tuesday, the first game will go to Kansas City to open the league season, May 1.

Charlie Mills announced he will send Carr, his young crack right hander against the Huron Sunday. A pitcher's battle is expected, as the Andrews team is expected to start the league season by beating the Huron. Wayne Carr and William Carr look fair to be a big help to the club in the National Association pennant race this year. Mills says his club is going to be up and going all season and the fans are going to get a real treat for their enthusiasm.

The game, Sunday, will start at 3 o'clock and indications are that the park will be crowded.

OFFICIAL SCHEDULE  
FOR MAY AND JUNE  
HAS BEEN ISSUED

The official opening of the Negro National League will be launched upon May 1st at all points along the circuit. There will be many exhibition games staged by all the clubs before the official opening, but they have no bearing upon the league results.

Provisions are provided for the National Club in this particular schedule, owing to the club having no park in and out of Philadelphia, which will be used by the National Club for exhibition games until the National League has been organized. The Western clubs swing around the Eastern circuit.

The Cleveland park could not be completed in time to give them a place in the schedule and games played at that city in the early part of the season will be played at other cities.

OFFERS FORTUNE FOR  
COLORED PLAYER  
NEW YORK, N. Y., April 23.—The  
Boston club of the New Continental  
League is reported to have offered  
\$5,000 to the Providence club who  
"Mule" Arns' Dickey, Negro pitcher  
who was credited with winning the  
Negro Southern League championship  
for Knoxville last season.

These three several occasional  
purchases in all the principal cities  
of the East and have lined up a ma-  
jority of the best colored players in  
the game. This is the high mark yet  
for the purchase of a race ball player.

SUMNER HIGH AND

rounding into form under the  
careful coaching of Mr. Mosby. The  
team to get an early start this  
year. Practice games have been  
played with—some of the best  
teams. Games also have been played  
against Concordia Seminary. In all  
of these games Sumner has given a  
good account of themselves. A game  
with McKelvey High is to be played  
in the near future, also a game with  
Concordia.

MOVEY PRIZES WILLS  
Not long ago a reporter unexpectedly  
ran across Sam McVey, the last-  
year's champion, and during a con-  
versation, Harry Wills charged with  
him. McVey was somewhat discom-  
forted, but he was not at all  
willingly gave his opinion saying:  
"I think that if Harry Wills and  
Jack Dempsey ever get together, it  
will be worth the price of admission  
to see a spectacle." I am not saying  
any winner for the fight, but I am  
saying that if this boy Dempsey  
does fight Harry in the ring, he  
will get himself killed once after.

"I have been Dempsey fight, and  
have been duly impressed," and I  
fought Harry Wills and was im-  
pressed by him, I mean impressed in fact  
with 1 fight Wills was not only  
impressed, but sort of depressed.  
In my opinion, Wills is too strong  
for Dempsey. Some folks are of the  
opinion that brute strength doesn't  
count in any of these "Markies"  
quenching matches. I think those folks  
have never seen Wills do any fight-  
ing, or they would think different.

VIRGINIA NORMAL  
BEATS HAMPTON 1-3  
HAMPTON, Va., April 16.—The  
Hampton Institute baseball nine lost  
to Virginia Normal and Industrial In-  
stitute of Petersburg on the Hampton  
Institute stadium by a score of 4 to 3.  
The teams were well matched and the  
whole it was the best played  
game witnessed on the institute dia-  
mond for some time.

The contest was largely a pitcher's  
battle from the start. Charles Har-  
rington, centerfielder, struck out 11  
while his opponent, Braxton, struck  
out 15. Both pitchers walked two  
men. Eight errors were made by  
Hampton and one by Petersburg.

There were several occasional  
plays during the game. Wood, of  
Hampton, the first man at the bat,  
hit the first ball he received for a  
home run. In the ninth inning, a  
thrilling play was made by Ogden,  
the Petersburg centerfielder, which  
clinched the victory for his team.

Dempsey Steps Negro  
And Deprives Public Of  
Logical Heavy Weight Bout  
Jack Dempsey is sidestepping a  
match that the sporting public would  
like to see. The champion recently  
draw the color line on Harry Wills,  
Negro, who defeated Fred  
Pulson so easily, and generally re-  
garded as the best fighting man in  
the world to be fighting.

Drawing the color line in boxing  
never has been a popular move. Since  
the Negro is allowed to participate in  
college sport and in amateur boxing,  
the fans can see no logical reason  
why the professional fighters should  
be so exclusive.
